SUMMARY

Frontend developer with around six years of professional experience building web applications. For the past few years at PlanRadar, a B2B construction SaaS used across Europe, I've worked in a large-scale React and TypeScript codebase across ticket management, document management, approval workflows, and advanced filtering. I care about clean, maintainable code and shipping features that hold up in production.

SKILLS

- JavaScript (ES6+)
- TypeScript
- React
- Redux / Redux-Saga
- Zustand
- HTML5
- CSS3 / SCSS
- Tailwind CSS
- Vitest / Playwright
- Git & Vite
- REST APIs
- WebSockets
- AI-assisted development (Claude, Cursor)

EXPERIENCE

Frontend Developer

PlanRadar • Vienna, Austria (Remote) • Jul 2022 – Present

- Build and maintain features in a large-scale React + TypeScript single-page app for a B2B construction platform used across Europe.
- Co-authored a reusable filtering system adopted across many list views; created its state provider and URL-persisted filter state.
- Main author of the approvals feature (approval cycles for tickets and documents), including a shared context that keeps approval state in sync across views.
- Shipped work across ticket management, document management (file preview & versioning), and approval workflows with real-time updates over WebSockets.

Web User Interface Developer

ExpandCart • 6th of October City, Egypt • Sep 2020 – Jan 2022

- Converted existing HTML templates into server-side templates using the Twig templating engine.
- Maintained and fixed UI issues across the e-commerce platform's storefront templates.

UI Developer

Road9 Media • Cairo, Egypt • Jul 2019 – Aug 2020

- Turned UX/UI designs into responsive, cross-browser websites for client projects.

PROJECTS

Cover Letter AI

cover-letter-ai-nu.vercel.app

- Built and deployed an AI-powered web app that generates a tailored cover letter from a job description and a CV.
- React, TypeScript, Vite, Tailwind, Vercel serverless functions, Groq LLM; secure server-side API-key handling, PDF upload and voice input.

Developer Portfolio

shadyagamy.github.io/ShAgamyPortfolio

- Personal portfolio built with React, showcasing selected frontend and client projects.

EDUCATION

Bachelor's Degree, Faculty of Science

Graduated 2014

LANGUAGES

- English: Professional working proficiency
- Arabic: Native

CERTIFICATES

Udacity: One Million Arab Coders, Front End Developer Track (2018)

Udacity: Intro to Programming Nanodegree (2018)

freeCodeCamp: Responsive Web Design (2018)

STRENGTHS

- Works well under pressure
- Strong team collaborator
- Learns new tasks quickly
- Clear communication
